

Work Smart with SMARTWeb

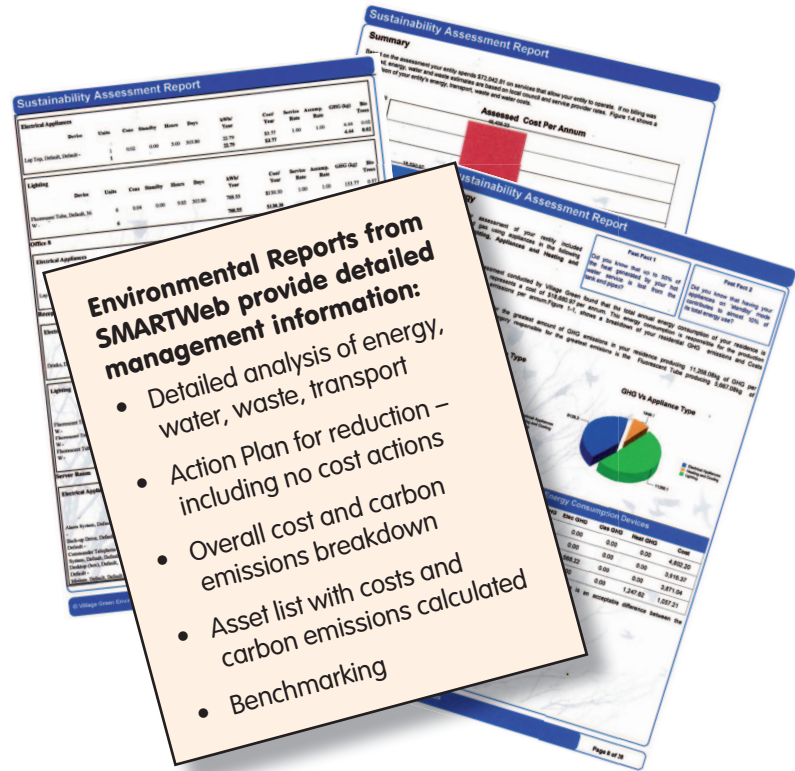

Improve competitiveness with environmental management

At the end of the Work Smart with SMARTWeb programme businesses will have:

- Gained competitive advantage
- Reduced costs and increased productivity
- Proven environmental performance
- Developed an environmental strategy and policy
- Completed two environmental reports (the second reports on your cost savings and progress)
- Completed a tailored environmental action plan
- Written an environmental marketing plan.

The subsidised Work Smart programme comprises the following:

- Environmental management software
- Individual support from a consultant
- Tailored workshops as follows:
 - ❖ Environmental assessment and software training
 - ❖ Environmental strategy and policy
 - ❖ Implementing energy efficiency
 - ❖ Implementing waste minimisation
 - ❖ Transport efficiency and green marketing

Businesses that register to take part in the Work Smart programme pay a single fee of \$550 + GST (for assessing one site up to 3,000 sq m floor area). **The Energy Efficiency and Conservation Authority (EECA) is subsidising the programme.**

Work Smart is a programme exclusively for EMA Northern members designed expressly to increase sales, reduce costs and increase productivity. Now is the best time, in this supported programme, to learn what you need to do, implement the recommendations and realise the benefits from environmental management.

Annette Lusk of Sustainable Edge Ltd will present the workshops, provide individual consulting and guide you through assessing your site and reducing your environmental impacts, using the internationally recognized environmental management tool, SMARTWeb.

Work Smart with SMARTWeb
